These parts should be built directly on top of the just-built lower rear wall.  The entire model is not shown here as it is visually very "cluttered" and difficult to see new parts being placed.

** Review Step 76 and then come back and continue **

# 136

For simplicity, this Bat Computer has been built with blank, black screens (tiles). For a more appealing module, replace these tiles with other screens, panels or keyboard tiles you may already have in your collection.

# 137

Once the Bat Computer is attached to the module body, you will need to rotate it at this connection, to position it level with the ground.

# 138

# 139

# 140

Stunt-double for instruction purposes only.

Replace with a real Superhero!

*"It's not who I am underneath, but what I do that defines me." - Batman.*

*Enjoy your new module!*
